

S1000D manager™ v2.0

Feature Enhancements

Manager v2 is the latest release of Inmedius' complete S1000D project setup and management support solution, and incorporates added functionality and enhancements requested by our valued clients. This document highlights and briefly describes the most significant changes and updates included in the August 2006 Manager release.

New Inbox

Additional S1000D specific fields include; Module Code, Language, Issue Number and QA Status. Aids in navigating assigned Data Modules (DM).

Module Code	Language	Issue No	QA Status	Role	Assignee	Functions
ABC14 Figures Book (en)	en-US	001	unverif	Author	A. User	✓
Bicycle - Description of function (en)	en-US	001	unverif	Author	A. User	✓
Bicycle Project				Project Manager	A. User	✓
Helicopter-B Project				Project Manager	A. User	✓
ICN-AE-A-000000-DU8025-00502-A-01-L				Illustrator	A. User	✓

Enhanced Effectivity/Applicability Support

Ability to configure Effectivity on a per project basis. Works with existing Applicability support to easily create manuals with specific product configurations.

Improved View Modules Tab

Illustrations/Publications Modules may now be viewed under the View Modules Tab.

Title	Variant	Issue Type	Activity Name	Issue Number	QA Status
Bicycle-Description of function (en)		new	Author	001	firstver
Bicycle-Description attributed to aircrew (en)		new		001	firstver

Web Service Capability with Inmedius S1000D Publishing Suite™

Access to Inbox, Check-in, Check-out

Enhanced integration with S1000DauthorPro™ allows access of the user inbox for Check-in, Check-out, and storage of publication output. Added ability to view all users currently logged into Manager.

DMC	Title	Issue	Language	Status
